"Since our core business involved constant landlord and tenant negotiation and renegotiation, effective negotiation was mission critical. We needed customized courses that were specific to our industry and our company and included case studies derived from our own business. Eogogics developed and taught those on time and within budget and received excellent reviews from the business people who participated in these courses."

*Peggy Fayvich, Former Vice President, Organization Development,
Crown Castle International*

Eogogics: Your Global Knowledge Services Partner

Eogogics, pronounced "Eoh-gahjix" (or just "Gogics", if you like), is your global knowledge services partner for training and consulting services in areas ranging from high-touch to high-tech. A typical Eogogics expert possesses at least 20 years of experience in his industry, is ranked in the top 10% in his peer group, and is a knowledgeable and dynamic problem-solver and communicator. Most of the services listed in this brochure are performed business-to-business.

Soft Skills Training

Eogogics offers customizable, high-impact courses aimed at the development needs of your individual contributors, team-workers, and team-leaders. The curriculum includes nearly three dozen courses, organized into the following curricula:

- Professional Effectiveness
- Interpersonal and Teamwork
- Management and Leadership
- Technical Management (Including Project Management)
- Technical Communications
- Sales and Customer Service

Courses That Make a Difference

Each course is custom-developed, usually at little to no added cost, to address your mission-critical issues and work with your business processes and culture. If you like, we can weave your business challenge right into the course, turning it into an Action Learning Program (ALP). With an ALP, your team will learn what's needed while working on real-life problems in real-time.

Dynamic, Practical, and Interactive

Our courses blend state-of-the-art knowledge with realistic case studies, simulations, role-plays, and group activities to make the learning job-relevant. They are developed by subject matter specialists working side by side with adult learning experts. They are taught by instructors who know how to teach adults while motivating and inspiring them. These are instructors who rank in the top 10% among their peer group and earn great evaluations class after class.

Unbeatable Return on Investment (ROI)

By leveraging technology and innovative business practices, we can deliver hard-hitting instruction that speaks to your business challenges at a very moderate cost. That, coupled with our thorough pre-class needs analysis and complimentary post-class follow-up, adds up to a great return on your training investment.

Full Range of Consulting Services to Augment Our Training Offerings

Holistic solutions to performance issues demand more than training. Therefore, Eogogics offers a comprehensive set of consulting and development services that include:

- Skills assessment
- Performance improvement studies
- Coaching by certified coaches
- In-house leadership development programs
- Experienced facilitators to lead strategy and problem-solving meetings
- Professional mediators to help resolve project and organizational conflict
- Training and documentation development to supplement your internal resources
- And more ...

Custom e-Learning Solutions

Eogogics offers an extensive set of e-learning development and management services including:

- Technology-based enterprise learning solutions, e.g., CBT/WBT and web-live courses
- Just-in-time and nano-training options including Electronic Performance Support Systems (EPSS), simulators, podcasts, PDA-based training, and more
- Enterprise learning infrastructure such as LMSs, LMCSs, and knowledge portals
- In-sourced development of custom e-learning courses
- Out-sourcing of e-learning development
- Management of e-learning design, development, and roll-out

Whether the e-learning is based on your content or ours, we can help you get the most from your e-learning investment.
